

Translate & Localize is a translation agency providing **translation and localization services** all over the world. Our members come from every corner of the world just like our clients; and it could not be any other way since what we do is help people communicate all around the globe and do business in foreign markets.

Translate & Localize helps you succeed on international markets, by effectively adapting your products and services to meet the demands of the global marketplace.

Translate & Localize offers the following services:

- Translation
- Proofreading
- Localization
- DTP & Web Design

Translation:

We can translate for you virtually any kind of text in a wide variety of language combinations. All our translators translate into their native language and are experts in their fields.

Website translation/localization - we help you build your multilingual static or dynamic websites. HTML, XML, PHP, ASP, JAVA, Flash... you name it!) **Translate & Localize** can also help you with your local SEO needs.

Mobile and IT Software translation/localization - In the exploding mobile network arena, we translate deployment plans, cellular phone user guides, games, movie titles, WAP services, billing systems, video descriptions etc. We localize also applications and games for PC's and gaming consoles.

Marketing translations - In-country specialists can translate your banners, press releases, affiliate programs and other promotional material, complete with culturally correct artwork and production. Our marketing translators will help you get the message across.

Legal translations - Terms and Conditions, Privacy Policy and Exemptions, Contracts and Agreements, Certificates.

Proofreading:

We provide proofreading for documents that have already been edited and that need to be checked and corrected one last time. Proofreaders will look for typing mistakes, spelling mistakes, number errors, misplaced captions or headlines and inconsistencies. Any text we translate undergoes proofreading of course, but you can send us texts translated by third parties to be proofread by us.

Localization:

We provide localizations, which combine translations and cultural adaptations of products and services to make them understandable to a specific culture and location. This includes the tailoring and adapting of websites or software applications to specific countries, in terms of linguistic quality and cultural nuances in order to make companies accessible to an international audience.

To convert your software or website interface into other languages, you need our high quality localization services.

High quality, reliability, flexibility, and confidentiality guaranteed.

We work with the most common text and graphics formats, as well as sound and video files.

Think multilingual!

DTP & Web Design:

Translate & Localize is not just translation and localization, we provide also DTP and web design thanks to our professional designers. Take advantage of our services for all your graphic needs (logos, identity, letterheads, banners, websites, brochures, catalogs...).

In order to reach new audiences abroad, to export and to fine-tune your communications, translation has become crucial in today's global, technology-focused economy. And this is where **Translate & Localize** can help you by becoming your translation service provider!

go global by going local
